

GARDEN WASTE

<https://www.wandsworth.gov.uk/rubbish-and-recycling/household-rubbish-and-recycling-collection/garden-waste/>

Have it collected as refuse

You can have up to five bags of compostable garden waste collected each week along with your other dustbin waste, this does not include Japanese Knotweed or any bulky garden waste items.

Just place your sacks of garden waste beside any dustbins or other waste sacks for collection and they will be collected at the same time. You do not have to use special garden waste sacks - any strong refuse sack is fine so long as it is tied and isn't split.

If you need more than five bags of garden waste collected on any single occasion or have bulky items of garden waste, please book a special collection or deliver them to the [Household Waste and Recycling Centre in Smugglers Way](#).

Any garden waste we collect is incinerated, generating electricity for the National Grid. The ashes produced are recycled in cement for construction projects.
